## About me

---

I am a passionate MCA graduate with a good foundation in software development. Eager to apply my skills in a dynamic and challenging environment. Excited to contribute to the success of an innovative company. Committed to advancing my professional growth and career development.

## Education

---

**Master of Computer Applications**, Cochin University of Science And Technology

2024 – 2026

- CGPA: 7.92

**Bachelor of Science in Chemistry**, SU College, Hilsa(Nalanda)

2021 – 2024

- Percentage - 67.8

**Intermediate (PCM)**, SU College ,Hilsa

2019 – 2021

- Percentage - 75.2

**Matriculation**, RCPG Girls High School , Hilsa

2018 – 2019

- Percentage: 76.4

## Skills

---

**Languages:** Core Java , C

**CourseWork:** Oops , DBMS , OS

**Development:** HTML , CSS , JavaScript

**Databases:** MySQL , MongoDB

**Technologies:** VsCode , GitHub

## Projects

---

### Stayio - Hotel Booking Portal

- Developed responsive web applications using JavaScript, HTML, and CSS. Emphasized user-friendly interface and scalable backend logic. Assisted in database management and integrated APIs with MySQL and MongoDB. Features include authentication, listings, responsive designs and user profiles.
- Tools Used: HTML , CSS , JavaScript , Node.js , MongoDB

### Email Armor: Spam Detection

- Developed an email spam detection application using Python and Streamlit. Built and trained a Multinomial Naive Bayes model for text feature extraction. Handled data preprocessing, model training, and prediction deployment on local environment.
- Tools Used: Python, Pandas, NumPy, Machine Learning

## Achievements and Certifications

---

– Consistently Solved coding problems on gfg and LeetCode

– ADCA certification

## Extra Curriculum Activities

---

– Attended a 3-day Technical Workshop at NIT Trichy and engaged in Hackathons and Coding Challenges

– Event Management

– An Active NSS Member
